WRITEUPS

Koksal0

```
┌──(medr4m㉿kali)-[~/Desktop/CTF-medr4m/koksal0]
└─$ cat Description.txt
koksal is hiding the flag ;)

Hint: you can look at koksal's smile.

┌──(medr4m㉿kali)-[~/Desktop/CTF-medr4m/koksal0]
└─$ cat secret.txt
DEFENSYS{EASY_PEASY_RIGHT???}
```

For this challenge we have a jpg picture (of the legend koksal 😉) and we have to look for the flag so how can we deal with it ?

The hint is a little bit tricky because it seems like something is written on koksal's smile or something like that but It's not the case, the sentence "koksal's smile" is just the passphrase for the command – steghide extract -sf koksal.jpg –

And that's it 😊

THANKS!
